

## Solutions for aggressive liquids & corrosives

Manufactured by Chemstore, Corvault provides a safe and compliant solution for the storage of your complete range of aggressive liquids and corrosive materials.

The Corvault range scales from entry level reach in storage solutions for small drums and modular walk-in units for IBCs and larger containers.

Backed by a 10 year structural guarantee each Corvault system may be combined with an extensive range of optional accessories to suit individual requirements and specific applications.

### Key Features:

- Full height ventilated louvers to ensure maximum natural airflow inside the store.
- Finished with 2 pack anti corrosive polyurethane paint system designed to resist chemical attack.
- Innovative design with tested and certified polyethylene sumps for optimal corrosion resistance.
- Full width spillage collection sumps.
- Robust fixed or modular shelving.
- 10 year structural guarantee.
- Powered ventilation, lighting and heating options.
- Compact walk in stores and larger solutions for palletised loads, large containers and IBCs.

**Corvault units guarantee a safer workplace for you and your employees.**

*"The Corvault range provides best in class performance for the safe storage of corrosives."*

	CORVAULT DESIGN CRITERIA & OPTIONS
<b>Location</b>	Internal or external.
<b>Storage Type</b>	Drum (1 to 96) & IBC storage (1 to 24) , Walk in/ reach in storage (Winchester, 5 ltr & 25 ltr), operator/ workroom, corrosive waste storage.
<b>Design</b>	Standard range or fully bespoke designs available.
<b>Corrosion Resistance</b>	Innovative polyethylene collection sumps with full corrosion resistance.
<b>Fully Modular</b>	All Corvaults are delivered to site fully assembled and ready for immediate use.
<b>Optional Extras</b>	Lighting, hazardous vapour extraction, HVAC & temperature control, sockets, anti-static grounding kits.

Corvault is part of Chemstore's family of solutions for the safe storage of hazardous, toxic and corrosive materials and gases.

The range has been designed with modularity, flexibility and security in mind. This approach enables the design and supply of standard, scalable systems or highly customised fire rated solutions comprising the latest ventilation and temperature control technology.

Chemstore Connect provides an advanced software tool for the seamless management of an organisation's hazardous material; improving compliance, lowering costs, and reducing risk.

The complete Chemstore family of products meets the strict safety, quality and certification requirements of the markets in which we operate.
