

Manufactured by Chemstore, Hazvault provides a modular and flexible solution for the safe storage of the widest range of hazardous materials.

The Hazvault range scales from entry level reach in storage solutions for small drums and modular walk-in units for IBCs and larger containers.

Backed by a 10 year structural guarantee each Hazvault system may be combined with an extensive range of optional accessories to suit individual requirements and specific applications.

Key Features:

- ⊕ Best in class solution for secondary containment of hazardous materials.
- ⊕ Full height ventilated louvers to ensure maximum natural airflow inside the store.
- ⊕ Compartmentalised, leakproof spillage collection sumps; tested and certified.
- ⊕ Robust fixed or modular shelving.
- ⊕ 10 year structural guarantee.
- ⊕ Grounding connections to prevent static charge build up.
- ⊕ Powered ventilation, lighting and heating options.
- ⊕ Compact walk in stores and larger solutions for palletised loads, large containers and IBCs.

Hazvault units guarantee a safer workplace for you and your employees.

“The Hazvault range is setting new standards in the elimination of risks.”

Fully Modular	All Hazvaults are delivered to site fully assembled and ready for immediate use.
Optional Extras	Lighting, Hazardous vapour extraction, HVAC & temperature control, sockets, anti-static grounding kits

Hazvault is part of Chemstore's family of solutions for the safe storage of hazardous, toxic and corrosive materials and gases.

The range has been designed with modularity, flexibility and security in mind. This approach enables the design and supply of standard, scalable systems or highly customised fire rated solutions comprising the latest ventilation and temperature control technology.

Chemstore Connect provides an advanced software tool for the seamless management of an organisation's hazardous material; improving compliance, lowering costs, and reducing risk.

The complete Chemstore family of products meets the strict safety, quality and certification requirements of the markets in which we operate.
